

TESTIMONIALS

"Jazakum Allahu Khayran for the help you gave me so that I can pass math"

-8th grade female student, Maryland

"I passed my college placement retake test after just 2 hrs of English language tutoring, and saved myself an extra college course"

-Student at Howard Community College, Maryland

"... (my sons) had their first (ILIA tutoring) session today (April 25), from 11 a.m. to 1 p.m. Alhamdulillah, it went very well. I don't think it's premature to say that it was a very positive experience for them. They enjoyed the session and were complementing Noor highly. Not only that, they came back home motivated with a "can-do" attitude. They continued with their studies not wanting to waste it on watching TV or going outside even though it's a lovely day. I am very pleased."

-Mother of 5th and 7th grade male students, Virginia

TUTORS

Our tutors bring diverse set of experiences, backgrounds and skills, some are as young as 10th graders and others are as mature as mid career experts in various related domains. Many of our tutors are full time professionals with higher education degrees and 20+ years of experience, as well as young students in college and/or high school. All our tutors complete a semi annual leadership and teaching training specifically designed for ILIA tutors.
